oh no no no no no

lately something's come over me  
i once was blind, oh but now i see  
a power flowing through my soul  
giving me control  
making me feel whole

*[Chorus]*

lead me, all through the days i go  
i need you all through my life i know

all my life i felt that i  
would rise above and reach the sky  
all i needed was a helping hand  
and there you were  
for me once again

*[Chorus]*

(i need you in my life)  
(i need you )

now i can thank you  
for showing the way  
keeping me strong  
every day  
all because of you  
i can do anything  
lead me home  
lead me home

please don't leave me  
don't go away  
cause i need you today in my life

*[Chorus 2x]*

cause i need you today in my . . .
