Somebody call my sister
Tell her how much I miss her
Tell my brother to come on too
amplifier's hummin'
that drummer is drummin'
singin' singin' this song for you

just when you think
there ain't no kitchen sink
you throw one in from way on out of you
oooh yeah

You gotta got enough to do
to bring out the kid in you
to bring out the kid in you
I know that you do come on
You gotta turn the music up too
to bring out the kid in you
to bring out the kid in you

left your home and family
to find out who you could be
find out if the dream was real
listen to the music
show you how to use it
the dream is really how you feel oh

just take a look
at all that time you took
what a guy would even listen true

oh oh oh
You gotta got enough to do
to bring out the kid in you
to bring out the kid in you
just bring it out
You gotta turn the music up too
to bring out the kid in you
to bring out the kid in you

oh I say

You gotta got enough to do
to bring out the kid in you
to bring out the kid in you
bring it out
bring it out yeah
You gotta turn the music up too
to bring out the kid in you
to bring out the kid in you

oh yeah
you gotta believe
to bring out the kid in you
gotta believe
you gotta believe
that you
bring out the kid in you
believe in you
you gotta believe
you gotta believe
you gotta believe
say you gotta believe
oh you gotta believe
you gotta believe
you gotta believe
say you gotta believe

You gotta got enough to do
to bring out the kid in you
to bring out the kid in you
come on come on now
You gotta turn the music up too
to bring out the kid in you
to bring out the kid in you
