One day i'll reach for you
To be with you forever
And then now we've come so close but you
Have never seen my love for you

[refrain]
I've been close to everybody
One thing you should know

[CHORUS]
It's complicated to be your girlfriend
'Coz we've been together but your love is not
Really that so sweet and i feel i am not for you
Everytime i see you baby, i'ts complicated

Another day pass us by
But i think we need to separate,goodbye
But i am so afraid that i will be alone
If we'll going to say goodbye

[repeat refrain]
[repeat CHORUS 2x]
