Well I tried hard not to get caught in the lamp light  
But it's easy simply to head for the heat  
And my mind is miles away at the seaside  
And meanwhile my body just follows my feet

And I'm flying higher yeah yeah  
Doing what I do  
Flying higher yeah yeah  
Going where I choose

So I thank you for lending yourself to my senses  
My defences are finding the grip has come loose

And I fly up high up and over the treetops  
Fear drops and my sky's wherever I choose

And I'm flying higher yeah yeah  
Doing what I do  
Flying higher yeah yeah  
Going where I choose

So take this time  
See what you do to yourself and my name  
Flying blind  
I find my wings  
I intertwine  
Just for a blink of an eye

And I'm flying higher yeah yeah  
Doing what I do  
Flying higher yeah yeah  
Going where I choose
