I think you ought to know  
It cuts right to the bone  
I went and lost my head  
And anything I could get  
I'd like to say hello  
But I'm hiding from the phone  
I can't take it all in  
Still reeling from the blow

Chorus

I hope the sun will shine again for me and I will make it  
in the end  
I hope the sun will shine again for me and I will make it  
in the end  
I see you through glass  
The price they have to pay  
For one sweet taste of you  
For me it's not the same  
It's time to let you go  
I watch you drain away  
It's easier on my soul  
I'm better off this way

Chorus

I know you'll take me back again to where I was before  
But for me this is the end  
The end

Chorus
