Question unfolding like books 'n their pages
They just keep on turnin' for me
And i keep on asking why every question
Will somehow relate back to me

Oh i was told by a knight of the sun
That wisdom could set people free

Be content in your questions
But may i just mention
You're only a drop in the sea
Only a drop in the sea

Directions revolving
These questions i'm solving
But nobody hears what i say

My answers unspoken
Of sweetest emotion
Believe how it feels today
Just believe how it feels today

Oh lei lei la lau
La la lau la la lau la la lau
Oh lei lei la lau
La la lau...

I was told by a knight of the sun
That wisdom could set people free (free) (free)

Be content in your questions
But may i just mention
You're only a drop in the sea
Only a drop in the sea
