(Opadu gluggan svo sÃailin geti flogi frjals)  
Our task is reality. Our aim is reality. From reality we  
draw our  
breath. From our wishes we get our will.  
We need all our wishes to become true. So they will  
become true.  
We need to eliminate those who try their best to stop  
our wishes  
becoming true.  
Those who try to close the window into our faces. Open  
the window and  
let our souls fly free.  
Let us get rid of the bomb.  
We ask those who are versed in alchemy, cosmic  
orgone, parapsychics,  
tesla, psychotronics,  
ultra-relativity, twistor-application, g-strain energetics,  
zothyan  
physics, fourier trance formation, psionics, bio-  
synthesis,  
fan shih, quantum-physicks, tanmatra-transmission,  
para-vidya, eluthery,  
laelia-aelia, gur-preparation, enantiodromy,  
lein-tan, pao-pu-tsu, chin-tan, chandrakala, urheka and  
mega-mathematics  
to assist in the most supreme transmutation:  
that of uranium and other radio-active metals into  
giving, not taking  
forces.  
Laymen and priests of all beliefs and credos and  
invited to lend their  
mind to this experiment.
