I'm just I'm just I'm just a man stuck pushing some
wheel
Moving on and down the road to the 303.
In the land of summer sun, we have just begun
Riding out with my friends in a Mercedes Benz.
You can find your way home on the 303
Let yourself go on the 303, on the 303 etc.

Well hard times, well all I know is that...
Dark times? Gotta let it go
Because I got my friends and I love my friends,
Got my friends yeah, right to the end round the bend,
all together now.

I've got to, got to, get to some place I've never seen
Headless guru in the night show me what you mean!
In the land of summer sun, we have just begun
Perfect picture card scene, changing all that has been.
You can find your way home on the 303
You can let somebody know on the 303, on the 303 etc.

Well hard times, well all I know is that...
Dark times? Totta let it go
because I got my stash and I love my hash,
Yeah got my stash Think I'll grow myself a big ol'hairly
moustache.

Oh oh oh

Oh you can find your way home on 303
Let somebody know on the 303, on the 303 etc.
