(Verse 1)

Girl i've been waiting for so very long
Just to say the words i do
Just wanna let you know, I feel for you
Come let's settle down my love

All that i have i will give to you
I'm gonna love you baby
For the rest of my life

(Chorus)

You will always be forever mine
Our love will stand the test of time
I vow to be one with thee
Together baby you and me

(Verse 2)

This everlasting love that i have in my heart
What we share is oh so true
Girl just take my hand i will lead the way

Together till the end of time

All that i have i will give to you
I'm gonna love you baby for the rest of my life

(Chorus x2)

(Verse 3)

Everytime I look in your eyes
You take my breath away
Whenever you need me I will be, there
I just wanna show you, mean the world to me
I promise to love with that I have
Never ever let you go, let you go

(Chorus x3)

Always be mine - I vow - together forever
