Visit "[Oculus Infernum](#)" on [MotoLyrics.com](#)

Within this pain lies no salvation Impurity strengthened
by mutilation Branded by wrath
Of ageless pyres Excrement's of purgatorial: fire
Endless lashes across Christian flesh With
Sick instruments of suffering Forged from the bones of
their own master Malevolence will never be
Condoned Void - horror Hell: Black vomit dungeon
Punishment is now a forever sanction
No repentance, worthless flagellation Void - horror
Abyss: Oculus Infernum Scarred, burnt, an
Esoteric coat of rust Carnished chrome cuts through
holy crown Mangled catastrophe, rivers of
Carnage Tied down, strung up, hung from inside out
Void - horror Hell: Sodomy and
Suffering punishment is now a forever - sanction
Clench the wheel, taste the flame Void - horror
Abyss: Oculus Infernum Within this pain lies no
salvation Impurity strengthened by mutilation
Branded by wrath of ageless pyres Excrement's of
purgatorial: fire Into the eye of Hell
In a gathering of horns Into the eye of Hell the
tormentorium is born With iron blades of
Hate we split open the hopeless hearts of God Raped
and racked: resistance dies by suffocation
Blasphemy and sickness hails - leads to reign of
perversion Sick act after another, Christendom is
Forever imprisoned Torn from within - throats removed
The bastard prayer spoken no more
No purity dwells within caustic blades That skin and
sever books of sacred beliefs Void - Horror Hell:
Charred Eucharist Punishment is now a forever -
sanction Sermon of torture: holy genocide
Void - Horror: Oculus Infernum
