Our power is one  
Red eyes of hate march onward  
Pulse of fear is thick with pain

Fear turned to hate, my misery  
Lust, for death with perverted praise

In, my, own ashes  
I stand here, without a soul

Gag on your own vomit - blood tainted  
Eye's full of blood - glazed stare  
Awake to the world - as black as night  
Hail him your new creator - the mech world

Lost...plagued...broken...

No more control  
Your host has taken over  
Symbionic 666

Fear turned to hate, my misery  
Lust, for death with perverted praise

What have you taken  
Alone with death surrounding

I have been possessed - Satan  
Awake to the world - as black as night  
Rid this disease - festering  
Death is only the beginning

Lost, plagued, and broken
