One more child,
Love will drought in time,
As we grow
From in our sins,
Our roots had deeper confidence,
Slowly giving strength and...
She's our soul
As our love from him come.
Through the leaves, and every strength
To call and browse some energies.
The life of us is success.
Everyday, makes the world much closer.
Every see there's a flower that opens.
Love, can be one life every knew.
It will rind us as through
That love makes the world conquer.

Pearly brights,
There's a guiding dye.
Kumon shines
For all to see
The reach on every mother's child
Real them to a cheapest
Everyday, makes the world much closer
Every see there's a flower that opens.
Light, every wonders that we learned.
All around us is true
That love makes the world conquer
Boundary makes a love life open.
Everyday, makes the favor broken.
Light, every wonders that we learned.
Is a key to a world
That turns as a big score
Everyday, makes the world much closer
Every see there's a flower that opens.

Love, any wonder far or new
All around us is true
Love life, makes the dreams come true.
