What you call life  
Is never ending dying  
You fear death  
But it's your redemption

You sold yourself  
To a system based on greed  
Your not my friend  
I want to see you bleed... now

So I decide to hate you

Your world's a grave  
Your life means death  
But I want to live  
I still believe

If you ever believed  
In life then you have stopped  
If you ever had dreams  
Seems like you gave'em up... now

So I decide to hate you

Can't take back my hate decision  
Can't take it back, won't take it back

Your suburban fascism  
Makes me wanna smash your face  
I feel my head explode  
Why are you so fucking stupid?
