Yeah, this is real!  
Yeah, this is right now!  
No, I can't heal you!  
You are already dead!

Human scum - killed by virus god!  
I'm the last of the sane!

Inhale the sound of silence  
New age pestilence

Wake up!  
Virus god

Hey, look at me!  
Hey, see my eyes glow!  
Yeah, I'm already dead!  
Smile, soon you'll join us!

Seraphim of a virus god  
Just one word: evolution

Inhale the sound of silence  
New age pestilence

Your future is not bright  
Your future means darkness

Two generations, not more  
Your days are numbered  
This system will collapse  
New world out of order  
Poor people gonna rise up and get what's theirs  
Poor people gonna rise up, get their share  
Their vengeance will be righteous  
Still time to change sides  
Still time for changes...  
(White silence! )
