Institutionalised opposition, defining myself through  
antis not pros  
How can one boy be so full of hate when he was never  
beaten in his fucking face  
Why can't I accept - my opinion is no law - there are  
others worth as much as mine  
So alone, so alone, caught alone by walls I built myself

A mirror - a smiling face - but even this - smile is a lie  
No one here - to drag down - just a fake smile - and a  
fake boy  
And in the end it's all about being a good friend and  
not alone  
I know I cheated you more than once, treated you like  
shit, forgive me, forgive me

Relief!

I realized I chained myself  
In a net of self righteous morality, the judge and the  
jury in one damn hand  
Political correctness can be a drug if you don't take  
care, look at my fucking veins  
If revolution means - aiming with guns at friends - then  
go ahead but I drop out right here  
Hearts broken, blood went black, stolen eyes and I'm  
unable to move

Let me take back all the shit I've done to you to drag  
you down  
Let me take back all the lies I told to make me look so  
cool and  
Please give me another chance, I know I don't deserve  
it but help me please  
Radical change - radically change myself
