Movin' in with the scum  
And shine a light on the sweet one  
Makes the one with the soul, classic girl

Can I have your autograph?  
It's not for what you are  
It's for only what you're not  
This is not a place, it's a feelin' now

Burnin' up in the sun in the fields  
Next to this on a wall, it means everything

Change the world at seventeen  
What a way to get it right  
And now she's gotta go  
Call it everything you hate  
And call me something more  
Call me what you want  
Can't stop this feelin' now

Get it over the floor, didn't feel it  
Get it out of the hole, didn't fill me in

Can I have your autograph?  
It's not for what you are  
It's for only what you're not  
This is not a place, it's a feelin' now
