Mouth like Sugar Shiver Finger-lashes Stick on  
I don't know how to get off on this  
You're not the same as everybody else.  
Why talk to her Most song Shambles.  
Pick on Normal hang on(s) stick on  
I don't know how to get off on her  
You're not the same as everybody else.  
Why talk to her An observation taken on, our way on.

A body kiss for you and I am straight on  
i don't prescribe the why's outside,  
I weigh up all the ghost.  
You're not the same as everybody else  
why talk to her Mouth like sugar shiver Rant on worship  
heaven

One on - one eye - with eye Wankers over workers  
What I want I hang on I have negative unbalance my  
guts  
where they are not dumb to these false leaders  
anymore  
and now you want to achieve another worthless defeat.

Welcome here the heroes  
they're on their way home  
The end of everything -  
you're dead in me forever  
They only want a "yes-man"  
they tell you what to believe and no (erm...)  
Yes I do I only want to be strong
