Lord

It's been a long time

And people don't you find

Always leave their troubles at your door

I live on my own

I don't need a bitter soul beatin on about my country
anymore

Don't you think your daddy needs you home right away

O Â"C it's about time, Can't you for once be strong

I bleed a little to

You're invisible, is there something I can give to you

I see my light come shining

There is good on the horizon

Daylight sneaking through my window

I will give you a rainbow and a bucket full of gold

You been bitten by eleven hungry kittens

Who will go the whole distance while the blind stagger

O Â"C Let the light shine, Could you for once be strong

I bleed a little to

You're invisible, is there something I can give to you

I see my light come shining

There is good on the horizon

Daylight sneaking through my window

I will give you a rainbow and a bucket full of gold

You been bitten by eleven hungry kittens

Who will go the whole distance while the blind stagger
