Whatever helps you through the night  
My paws keep going to turn on the satellite  
Always look to the positive  
I don't feel the pain when I'm watching the title fight

How could I ever want to disown you?  
I want to love and to have and to hold you  
All the good in the world and you keep it under your  
thumb

Amphetamines will keep you thin  
My heart beats fast and I'm climbing the walls again  
I've been talking for miles on end  
Or is it because everybody is a friend

How could I ever want to disown you?  
I want to love and to have and to hold you  
All the good in the world and you keep it under your  
thumb

I have my freedom and while I'm living  
I know the world can't touch me  
I could wait forever, love in vain, yeah  
I will have you when your birthday comes

I am the Sundance Kid coming to you  
In the grooves with a positive  
Is it because our talent's shining?  
Bound by the empire, follow the Eskimo

How could I ever want to disown you?  
I want to love and to have and to hold you  
All the good in the world and you keep it under your  
thumb

I have my freedom while I'm living  
I know the world can't touch me  
I could wait forever, love in vain, yeah  
I'll have you when your birthday comes

I have my freedom while I'm living  
I know the world can't touch me

I could wait forever, love in vain, yeah  
I'll have you when your birthday comes
