"In The Winelight"

In the winelight - livin' lovin's soft delights
Smooth and mellow - feelin' how we move so right
We're lettin' the time go - & takin' it nice and slow.

In the winelight - lazyin' through this all night flight
Higher and higher, baby - touchin' you with second
sight
We're over the rainbow - it's time to let it flow

Baby, you're my lover - no other I'd ask to stay
And make a hideaway with me.
Dreaming in Burgandy

Lookin' out the window at the universe's starry array -
We can say:
"Everything's ok, you see" - as long as you're here with
Me

We can leave the world or make it go.
We can lose it in the undertow
If you say it's true, then we can push it away
As long as you stay
Whatever you say
Please, baby, just stay

And let this winelight - color every look tonight
Feel the love grow - & let our spirits reunite
We never will let go - until we overflow
