Last Word

If I was you and you were me
And we were living the good life
It possibly would end up
In discussions but no fights
Tranquilize just to see what we've become
Wouldn't it be great
With changes for once
We always want the last word
I give you what you want
But you want me to hurt
And we always want the last word
I want you but you want no one at all
Every time I open my mouth
I end up apologizing
Wouldn't you please stop that
Annoying nagging
Chorus
We always want the last word
Bad mouthed me
Let me know what you heard
And we always want the last word
