You always told me  
You'd love me forever  
I guess forever starts tonight  
I won't give up on us  
And the life we've made together  
I've somehow got to find a way  
To make you change your mind  
Chorus  
We're too good to be through  
We can't walk away and make believe  
There was no me and you  
Pretendin' I don't love you  
Is somethin' I can't do  
We're too good  
Too good to be through  
Seems like yesterday  
We were braggin' on each other  
You and me could do no wrong

Look at us now  
We're actin' just like strangers  
We've got to find a way to get back  
Where we both belong  
Chorus  
Tell me that I'm dreamin'  
I can't believe my eyes  
I never thought we'd ever say goodbye  
Chorus  
Too good to be through  
We can't walk away and make believe  
There was no me and you  
Pretendin' I don't love you  
Is somethin' I can't do  
'Cause we're too good  
Yea, yea, we're too good  
Yes we're too good  
Too good to be through
