Nobody knows but when we're both there  
Between me and you there is always a stare  
When they're not about,  
When I was in town  
Nobody knows that we sneak around  
Well it always shows  
That when your with me  
Your always happy as you could be  
And when your with him,  
Well it's not the same  
Are you not tired of playing these games

Lets run away spend our lives together  
One summer day we should leave forever  
I wanna be in the sunny weather,  
I know you wanna be with me  
Lets run away girl it's now or never  
We both know we should be together  
What's it gonna be girl  
I've got all you need,  
You'll see  
So won't you run away with me

Girl you know me  
And baby I know you  
There's something that you should see  
There's something I wanna show you  
How our life could be together  
Ohh yeah  
Well it's something  
It's not right  
It's not fair that he's there  
And she's here unaware  
It's time we said goodbye  
Cause I need you in my life

Lets run away spend our lives together  
One summer day we should leave forever  
I wanna be in the sunny weather,  
I know you wanna be with me  
Lets run away girl it's now or never  
We both know we should be together

What's it gonna be girl  
I've got all you need  
You'll see  
So won't you run away with me

If it's true love  
Then you won't  
Have a doubt in your mind  
If it's true love  
Then we should go  
No matter what we leave behind

Lets run away spend our lives together  
One summer day we should leave forever  
I wanna be in the sunny weather,  
I know you wanna be with me  
Lets run away girl it's now or never  
We both know we should be together  
What's it gonna be girl  
I've got all you need  
You'll see  
So won't you run away with me

Lets run away spend our lives together  
One summer day we should leave forever  
I wanna be in the sunny weather,  
I know you wanna be with me  
Lets run away girl it's now or never  
We both know we should be together  
What's it gonna be girl  
I've got all you need  
You'll see  
So won't you run away with me
