Verse 1

What's a girl like you doing
Hanging around, letting him get you down
all he puts you through is hell
When there's a guy like me,
Who'd happily,
Pick you up when your feeling down
Shh girl i don't wanna hear that sound

No please don't cry, sugar
You don't have to carry on, like this
why don't you say goodbye, to him
Don't let him break your heart again
There's no need to pretend
That everything's okay

Chorus

(Anything that you want)
I've got it
(Anything that you need)
Well that's me
I never saw this coming but you swept me off my feet
(swept me off my feet)
Don't worry, I'll do all i can cos you're so sweet
Let me take you off his hands
Come spend a night with me

Verse 2

If I can, I wanna be your man
If I could I would, You wouldn't understand
'cos when a girl like you's
Had her heart bruised
You don't know how anyone could care
you should know that i'll always be there

Well let me take you anywhere you wanna go
You don't have to wonder you'll know anything you
wanna know
I know how you feel inside

I think it's time you let it off your mind
'cos with a guy like me
You'll live happily, everything will be okay.

(Anything that you want)
I've got it
(Anything that you need)
Well that's me
I never saw this coming but you swept me off my feet
(swept me off my feet)
Don't worry, I'll do all i can cos you're so sweet
Let me take you off his hands
Come spend a night with me

I can take you anywhere you wanna go
You don't have to wonder you'll know anything you
wanna know
I know how you feel inside
I think it's time you let it off your mind
'cos with a guy like me
You'll live happily, everything will be okay.

(Anything that you want)
I've got it
(Anything that you need)
Well that's me
I never saw this coming but you swept me off my feet
(swept me off my feet)
Don't worry, I'll do all i can cos you're so sweet
Let me take you off his hands
Come spend a night, come spend the night with me

I've got it
(Anything that you need)
Well that's me
I never saw this coming but you swept me off my feet
(swept me off my feet)
Don't worry, you're so sweet
Let me take you off his hands
Come spend a night with me
