Aight everybody get on the ground right now  
Yeah, this is not your money  
This is insured by the federal government  
So this is not your money, don't move

Don't be a hero, and you won't get blown  
The fuck up right now  
Yeah, aight y'all we got three minutes  
Startin' now let's keep it rollin'

Hit the bank from the back  
Double the trouble, forcin' my entry  
The first nigga that I saw, shot him in the jaw  
Xzibit started stompin' him and so did we  
(Get down bitch)

Aww shit, about time we started dumpin' on security  
High society, takin' what's mine  
Snatchin' each purse after purse for every nickel and  
dime  
Premeditated created by the scorn and the hate

But I made ma, the big time, lights and the shine  
It's a full scale war, everybody bear arms  
Wear body armor, national arms

Dip away to get away, sirens alarms screamin'  
Yellin' out, hell demons of war

Hell hounds that surround the wells Fargo browns  
No tomorrow, hollow, harness rounds

Take a sip of your Perrier  
To pay, I'ma dump like a dump truck, scramble to make  
my escape  
Dat nigga Daz, shootin' so nothin' else come in  
I'm shootin' in the opposite direction, we closed in  
Shells spread nigga because we can do the work

First things first like snoop, I'ma shoot the clerk  
And I did, now it's time to split get nigga get  
(Let's go)  
Dumpin' and shoot the hostages  
Soopafly outside in the ride  
'Bout to start shootin' everything that he see outside

Loose cannons, face covered with bandannas  
Chrome pieces, mother fuck the police  
It's everybody killers on mine  
If I ever get caught for crime, won't be doin' federal  
time

Loose cannons, face covered with bandannas  
Chrome pieces, mother fuck the police  
It's everybody killers on mine  
If I ever get caught for crime, won't be doin' federal  
time
