"Need"

Visit "[Need](#)" on MotoLyrics.com

You tore the veil
So my eyes could see
Your open arms
Right in front of me
LOrd I feel blind
Make this darknees flee
You know exactly
Waht I need

Help me God I do belive
But I feel lost and it's killing me
I need You right now.
God please answer me,
I know You're here but it's hard to see
I need You right now.

Trying myself
To figure it out
It's like standing on sand
And swimming in doubt
I know I'm not alone
If all of this time
You've been waiting
All of this time
For me to say it
Now I'm calling out.

Help me God I do belive
But I feel lost and it's killing me
I need You right now.
God please answer me,
I know You're here but it's hard to see
I need You right now.

You tore the veil
So my eyes could see
Your open arms
Right in front of me
LOrd I feel blind
Make this darknees flee
You know exactly

Waht I need
It's You
It's You
It's You

Help me God I do belive
But I feel lost and it's killing me
I need You right now.
God please answer me,
I know You're here but it's hard to see
I need You right now.

You tore the veil
So my eyes could see
Your open arms
Right in front of me

You tore the veil
So my eyes could see
Your open arms
Right in front of me
