I'm waiting for tomorrow
and soon there's no reason to be afraid anymore
There's no time for any wavering
if you'll be with me and I'll be with you 'til the end

A new chapter in my live has just begun
and I feel like a child with a smile for the first time he
opens his eyes
and I feel so supreme
if you'll be with me and I'll be with you 'til the end

Chorus:
Heartbeats... 24/7
Spread the word to the people across the world

and soon everything's gonna be just fine
if you come to me and I hear you say
that you'll be with me and I'll be with you 'til the end

Grinding brains by razorsharp thoughts
You can scream, nobody hears you, near you, what can
you do?
You better focus on this or hocuspocus it hits you
Do the analyze or dismiss, like a Swiss clock goes the
beat
Gimme the mic, I wanna func you like this
C'mon

And now after all I know you didn't mean to hurt me,
thought
And now after all, now you know that you did so...
