If there's nothing else to fear than fear itself
I'm in trouble, deep up to my neck
And I hold up a facade of bravery
And strength to the whole of the world
You're the only one I have the guts to confess
And feart, it sheckles, I see that now
It's like all the negativity
It breeds itself inside on the whole of the world
You're using me ruthlessly
Heaven true
I am for you
Still you're breaking my heart
And though how hard I try
To leave it all behind
I cannot ignore that I'm trembling inside
I'm trying to do and forget, forget it ever existed
But it's two steps ahead
Lives deep down inside of me
It breeds a whole brand of insecurities
I hold up a facade of bravery
And strength to thw whole of the world
I want to become as strong as I've been leading you all
along
Veil and fiction await to be discovered
