I turn around to see you face  
Up in this place, I rest my case  
If you're not around  
Everybody in the world is gonna notice  
That my love is true how long will i keep this?  
Turn around start looking in my eye  
With a little single smile, feel like I'm in the sky  
I never really wanna turn around to feel this  
But my heart tells me that I should believe this  
Refrain:  
Every night I've been thinking of you  
Hiding this feeling, don't know what to do  
I keep changing the way that I feel  
But my heart tells me this is for real  
Chorus:  
I, boy, want to be with you  
Oh oh oh oh boy, want to be with you  
Ooooh yeah  
I love you, I need you  
You're the air that I've been breathing  
Come hold me, come love me  
Make me feel that I am dreaming  
Don't fool me, come show me  
All the secrets you've been keeping  
All my life, in my life, you're the only one who's missing  
I will find you  
And I will find you  
Would you be that star in the sky,  
That I keep waiting for to fall in my life?  
Would you be that cure for my pain,  
That I've been searching for; hope you feel the same  
(Repeat chorus)  
I turn around to see you face  
Up in this place, I rest my case  
If you're not around  
Everybody in the world is gonna notice  
That my love is true how long will i keep this?  
Turn around start looking in my eye  
With a little single smile, feel like I'm in the sky  
I never really wanna turn around to feel this  
But my heart tells me that I should believe this  
(Repeat Chorus)
