

Kyla "This Day"

Visit "[This Day](#)" on MotoLyrics.com

This day when you left me
I realized how much you mean to me
This day when you said goodbye
I never thought that I would cry
Our faultless dream that we used to do (faultless
dream that we used to do)
Now shattered and filled with sorrow too

We can never go back to that dream again
'coz I know my heart
It will soon end

[Chorus:]
How could it be
That our love can't be saved
How can I say
My love for you will forever embrace
It's too late
It's too late
Our promised love has gone to late...

This night when you left me
I realized how much you mean to me
This night when you said goodbye
I never thought that I would cry
Our faultless dream that we used to do
Now shattered and filled with sorrow too

We can never go back to that dream again
Coz I know my heart
It will soon end

(Repeat Chorus)
