You asked me one sometime ago  
The reason for my loving  
An wanting more and more  
You know that I still love you  
But should I let things be?  
Cause saying that there's someone new  
Is much too much for me

How long has this been goin' on  
How long has it been since  
She held you in her arms  
Now what are you trying to tell me  
What made you feel this way  
I'd rather you say it out to me  
Than hurt me this way

[Refrain:]  
Cause I close my eyes  
Thinkin' of ways to make you realize  
How hard it is for me  
To see you go

[Chorus:]  
What more can I say  
You're goin' away this time for real  
Now who is to blame  
Is it you, is it me?  
Is right for her to steal, steal you away  
You've always been my darlin'  
You know I want/need you to stay

This time tomorrow you'll be gone  
It's hard to believe we've got to an end  
What's hardly just begun  
Now what are you trying to tell me  
What made you feel this way  
I'd rather you say it out to me  
Than hurt me this way

[Refrain:]  
Cause I close my eyes  
Thinkin' of ways to make you realize

How hard it is for me  
To see you go

[Chorus:] [2x]

What more can I say  
You're goin' away this time for real  
Now who is to blame  
Is it you, is it me?  
Is right for her to steal, steal you away  
You've always been my darlin'  
You know I want/need you to stay

[Bridge:]

Tell me this is not what it seems to be  
Just hold me tight and say I'm dreaming  
Cause I can't believe you're leaving me behind  
Don't let the flames disguise the fire

[Refrain:]

Cause I close my eyes  
Thinkin' of ways to make you realize  
How hard it is for me  
To see you go

[Chorus:] [2x]

What more can I say  
You're goin' away this time for real  
Now who is to blame  
Is it you, is it me?  
Is right for her to steal, steal you away  
You've always been my darlin'  
You know I want/need you to stay

I'd like to hold you and love you tonight  
I'd like to feel you and make things right  
You know I love you, I wanna feel you  
I wanna touch you and make things right  
What more can I say
