I'm tired of feeling this way
Something's got to change
Or something's gonna break

I've been liven' in the space between my ears
Petting all the monsters that appear

Your face is hanging in a frame
In the back of my head, in the back of my skull

And it rattles around, rattles around,
Till all the screws come loose

Oh no here we go
Your broken heart ache
Steals from the moment
To pay off the shit you started

Can you forget
The voice in your head
Imaginary friend
The voice in your head
You'll battle till the end

I tried so many times
To get away
But there's no escaping

At night i close my eyes
And dive into your open arms
But you're not even there
But you're not even there

Oh no here we go
Your broken heart ache
Steals from the moment
To pay off the shit you started

Yan you forget
The voice in your head
Imaginary friend
The voice in your head
You'll battle till the end

I can see your face
When i close my eyes
Superimposed
On the rest of my life

I can see your face
When i close my eyes
I'll keep you close
I'll shut them tight
