Yesterday my friends came around  
They know that I'm lonely, know that it's only  
A matter of time before I break down  
'Cause you were my only, you're why I'm lonely  
They say a night on the town is going to save me  
And they say I'll figure it out even if it takes me

All night, I'm gonna be all right  
I know heartache heals in time  
And it might take a while to see  
All the things I need  
To mend this broken heart of mine  
It's gonna take me all night

So we go out to my favorite place  
They know that I'm lonely because they all know me  
Then walks in the most beautiful face and says,  
"I know you don't know me, but I can tell you're lonely.  
We may not have much time, but maybe I can save  
you."  
I said, "Girl, I'll let you try, cause even if it takes you..."

All night, I'm gonna be all right  
I know heartache heals in time  
And it might take a while to see  
All the things I need  
To mend this broken heart of mine  
It's gonna take me all night

They say a night on the town is going to save me  
And they say I'll figure it out even if it takes me

All night, I'm gonna be all right  
I know heartache heals in time  
And it might take a while to see  
All the things I need  
To mend this broken heart of mine  
It's gonna take me all night  
I'm gonna be all right  
I know heartache heals in time  
And it might take a while to see

All the things I need  
To mend this broken heart of mine  
It's gonna take me all night  
All night
