Baby let's get out of here while the night's still young
I know a little place down by the river if we run
We'll follow the trail by light of the moon
But if we want to make it tonight, we'd better leave
soon

CHORUS

'Cause it's the first day of summer and I've been
Waiting all year for this moment
With you right there with me
Tonight under the stars when
I'll show you how my heart is
With you right there with me

Girl I'm so surprised with the way you are
I never thought that we could ever come this far
It's almost three, but I don't mind
If we want to stay here all night, that'll be fine

CHORUS II

'Cause it's the first day of summer and I've been
Waiting all year for this moment
With you right there with me
The way that you look in the water
And oh how the night gets hotter
With you right there with me

BRIDGE

I know it's getting late, and you've got to go
But I just can't leave without kissing you just once more

CHORUS III

It's the first day of summer and I've been
Waiting all year for this moment
With you right there with me
This is my chance of a lifetime
This true romance by the moonlight
With you right there with me
