I know you too well
Maybe more than myself
So don't try to hide anything.
When you feel something's wrong
You run to be alone
But you can't ever outrun the pain.
So look me in the eyes let me feel what you feel
There's no need to move girl, you know I'll be still

Still the same man as I was the first day
That I told you I'll never let you get away from me
Baby, you make or break me.

We've been here before and one thing's for sure
Life gets rough every now and then
But we've still got that fire, the burning desire
That reminds us again and again
Of the first time we touched so new and surreal
For as long as I live girl you know I'll be still

I'm still the same man as I was the first day
That I told you I'll never let you get away from me
Baby, you make or break me.
And most times you know I only want to say
That I love you, I want you, I need you to stay with me
Baby, you make or break me.

So look me in the eyes and let me feel what you feel
For as long as I'm alive girl you know I'll be still

Still the same man as I was the first day
That I told you I'll never let you get away from me
Baby, you make or break me.
And most times you know I only want to say
That I love you, I want you, I need you to stay with me
Baby...

Oh, I'm still the same man as I was the first day
I love you, I want you, I need you to stay with me
Baby, you make or break me...
Oh, you make or break me
