I'm going to the show tonight
Been waiting to see you shine
Just like you do
Well, the ticket line is moving slow
And I've been dying to let you know that I'm here for
you
For you
Yeah, I must have gotten lost staring up at the stars
Cause I never thought that I'd go so far
So I could sit in the crowd, watching you onstage
And ask you the one thing I've wanted to say
Will you still remember me
When I see you on Broadway?
I know you'll shine the brightest in the sky
And I'll hope this song is why you'll know my name
I watch close as you step into the spotlight
You take the show away
And listen up to the words that your voice carries
across the amphitheatre
It carries across the amphitheatre
And will you still remember me
When I see you on Broadway?
When I know you'll shine the brightest in the sky
And I hope this song is why you know my name
