Yeah I've been stayin' up
Until the mornin' comes
Yeah I've been stayin' up
Until the mornin' comes

Thinkin' we'll be together in another life
It wasn't meant to be, right now
We'll be lovers in another life
If it kills me

I wanna know
I wanna know
What you feel like
In the heat of the night
Letting go
On our own
I wanna feel what you're like
In another life

I'm just a cannonball
Rushin' to the ocean
And I've been talkin' to the walls
How my numbers' crunchin'

Beuase we'll be together in another life
It wasn't meant to be, right now
We'll be lovers in another life
If it kills me

I wanna know
I wanna know
What you feel like
In the heat of the night
Letting go
On our own
I wanna feel what you're like
In another life

Feelings rushin' over me
That I can't help
Static runnin' through the sheets

In a spell
Oh I wanna know
I wanna know
What you feel like
In another life

Yeah I've been stayin' up
Until the mornin' comes
Yeah I've been stayin' up
Until the mornin' comes

Thinkin' we'll be together in another life
It wasn't meant to be, right now
We'll be lovers in another life
If it kills me

I wanna know
I wanna know
What you feel like
In the heat of the night
Letting go
On our own
I wanna feel what you're like
In another life
In another life, yeah
In another life
Baby in another life
