Somethings rollin in  
Throw your caution to the wind  
It's the 70's again... when we touch

Now I'm loving all the rain  
And I'm hopin that it stays  
Cuz it's locking us away  
Just enough... for a touch

So we're gonna do it right  
Through the night  
We're side by side  
Going low to high  
And we don't think twice  
No we don't think twice  
(Ah yeah)

Riding on the sound  
Of the stars falling down  
We're morning bound  
Tonight

Now Icarus sings  
About spreading your wings  
And there's no such thing  
As too high... tonight

So we're gonna do it right  
Through the night  
We're side by side  
Goin low to high  
And we don't think twice  
Now I got your boundary lines  
In my sight  
Gonna cross tonight  
Going low to high  
And we don't think twice  
No we don't think twice

Well I got nowhere to be  
And you got noone to see

So let our loving lead the way... the way

Yeah we're gonna do it right  
Through the night  
We're side by side  
Going low to high  
And we don't think twice

Yeah we're gonna do it right  
Through the night  
We're side by side  
Going low to high  
And we don't think twice  
Yeah I got your boundary lines  
In my sight  
Gonna cross tonight  
Going Low to high  
And we don't think twice  
No we don't think twice  
(Ah yeah)  
(Ah yeah)
