In the mornin' I was weary
Oh, in the mornin' I was lost
But in the evenin' I was dreamin'
Of our love an' the way it carries on

In the city, I was workin'
Feelin' busy, chasin' time
But when I'm tired, she's my fire
'Cause I know that her love is always mine

She assures me
That when life hurts me
Our love will carry on

In the afternoon I was worried
About the future an' where I'd go
But when I'm thinkin', my fears start sinkin'
'Cause I turn to the love I'll always know

She assures me
That when life hurts me
Our love will carry on

She assures me
That when life hurts me
Our love will carry on

She assures me
That when life hurts me
Our love will carry on, yeah
Our love will carry on

Our love will carry on
Our love will carry on
Our love will carry on
