You're my woman and I'm your man  
There ain't nothing left to understand  
You dial my number, but you, you don't know why  
Love is playing with your virgin mind

You [Incomprehensible] weak baby, you feel so numb  
You don't stop eatin' 'cause I'm [Incomprehensible]  
You fall down crying and you scream my name  
'Cause I'm your woman till your dying days

Welcome to our chemistry baby  
Finally you can feel like a lady, yeah  
Darlin' it's too good to explain it, yes it is  
Welcome to our chemistry baby

You wake up feeling like a, like a million Dollar bill  
You got to concentrate, baby but you can't sit still  
You tell your mother, you, you tell all your friends  
That you and your lover are making love till the end

Welcome to our chemistry baby  
Finally you can feel like a lady, yeah  
Darlin', it's too good to explain it, yes it is  
Welcome to our chemistry baby

You blow my mind  
All the time  
And it feels so fine  
Your love is making me high

Welcome to our chemistry baby  
Finally you can feel like a lady  
Darlin', it's too good to explain it, yes it is  
Welcome to our chemistry baby

Welcome to our chemistry baby  
Finally you can feel like a lady  
Darlin', it's too good to explain, yes it is  
Welcome to our chemistry, welcome to our chemistry  
Welcome to our chemistry babe
