I wiped away my teary eyes
Trying to forget this sad moment
With no doubt my father ain't so proud
He pats me on my back
He turns to me and says
Get over it son you'll hav another chance you won't end
up by urself
The school yards changing cause are lips ain't
speaking
I was giving you my heart but now that beats drop drop
dropping again

Rest ur head on me
And lets lie down together
This should be are days
So lets go on our walkabouts

I wish we could still be talking
Tell you I'd love you and hold u in my arms so tightley
But then you fell in love with my good friend
While I kick back does tears

So rest ur head on me
And lets lie down together
This should be are days
So lets go on our walkabouts

Rest ur head on me
I'll keep ur cute smile
In my book of sorrows
And that were our days
So now I'll go on my teary walkabouts
