Charles & Eddie  
Where Do We Go From Here?

Been around here long enough to know  
That this love is not forever just too hard to let it go  
We both know that we're supposed to walk away  
But we never do

Where do we go from heer  
That's all I need to know

Started out at first just wanting to be friends  
But the friendship kept on going til we wound up in my  
bed  
Now we're hurting just to get back where we were  
Will we ever  
I don't know

Where do we go from here

Seems the more we give  
The more we die  
Inside  
Guess eventually  
We'll just give up trying  
Give up trying baby  
'Cause we know we don't share the same dreams
