"Perception"

Visit "[Perception](#)" on MotoLyrics.com

Years of thought trapped inside

An unstable judgement

Perception of severity

Insidious eye

Without sight

Crossing wires

Perception of severity

We are together never alone

Some other time

Place my hand unto you

Feel no shame

Hover and suffer

Over one

Lost ending soul

One reason to fall

Is to rise

Break down, break down

One false move

Everything changes

No second chance
