Would you please forgive me
I feel a stranger here
It seems that I've lost all my memories
And all of my tears

I know why I'm so crazy, I don't care
'Cause it's you that makes me so beware

You put me on automatic love, there's no return, I'm on
Automatic love, nothing can stop me, I'm on
Automatic love, come on and turn it on
Automatic, automatic, turn it on

I don't feel you enter
In my main menu
But every time I touch the key
The screen is showing you

I know why I'm so crazy, I don't care
'Cause it's you that makes me so beware

You put me on automatic love, there's no return, I'm on
Automatic love, nothing can stop, I'm on
Automatic love, come on and turn it on
Automatic, automatic, turn it on

No man you will control
It's automatic
So beware, oh, yeah, yeah, yeah, yeah

You put me on automatic love, automatic love
Automatic love, nothing can stop me, I'm on
Automatic love, come on and turn it on
Automatic, automatic

Automatic love, there's no return, I'm on
Automatic love, nothing can stop me, I'm on
Automatic love, come on and turn it on
Automatic, automatic, turn it on
