Oh I see what she do - but I can do it better
And the talk of the town be true but I'll make you forget
her
How can you hate something that you ain't ever tried?
You've got to lose control most every night
Yeah you see what they do
Well we can do it better, yeah I'm talking to you

You've got to feel it, see it, know how much you need it
What's the point in living if you don't take a chance?
You've got to use it, lose it, know that you'll still do it
What's the point in living if you don't wanna dance?

Oh I know life is hard - so we're living for the weekend
You can hurt or take heart - I guess it really depends
What's the point in worrying about being cool
When there's a million things to learn they never teach
you in school?
Oh don't believe what they say
We just want tomorrow to be better than today. Hey!

You've got to feel it, see it, know how much you need it
What's the point in living if you don't take a chance?
You've got to use it, lose it, know that you'll still do it
What's the point in living if you don't wanna dance?
You've got to feel it, see it, know how much you need it
What's the point in living if you don't take a chance?
You've got to use it, lose it, know that you'll still do it
What's the point in living if you don't wanna dance?

Fabrications complicate the world in a web
Too much useless information plays with your head
Very clever people know we all need a chance
To stop our clever business and let go and dance

You've got to use it, lose it, know that you'll still do it
What's the point in living if you don't wanna dance?
You've got to feel it, see it, know how much you need it
What's the point in living if you don't take a chance?
You've got to use it, lose it, know that you'll still do it
What's the point in living if you don't wanna dance?

Oh oh
Oh oh everybody
Everybody wanna dance now
Oh oh
Oh oh everybody
Everybody wanna dance now
