Shed my skin since you came in
Where do you end and I begin?
Awoke my senses yet you stopped time
You took me to a deeper high
The essence of my hopes and fears
Creation of my muddled dreams

Cowboy style
With a peaceful smile
You are from the temple
Won't you stay a while?

From my voice to have my say
You take me close to far away
And now I find and now I feel
The ordinary is surreal
Peace and terror all in one
My future life has just begun

Cowboy style
With a peaceful smile
You are from the temple
Won't you stay a while?

Cowboy style
With a peaceful smile
You are from the temple
Won't you stay a while?
You stay a while

I am frightened and I'm aroused
I'm enlightened to the now

Cowboy style, cowboy style, cowboy style
With a peaceful smile
You are from the temple
Won't you stay a while?
