Surely this can't be heaven
Though it feels like I died
I guess it's just goodbye then
There's nowhere left to hide

Can't you see you have the power
To make or break my day?
I'm getting weaker by the hour
All the time you stay away

I'm so in alone, I feel so lonely
Here on my own, I've lost my way
I never dreamt that it could hurt like this boy
Lost in the absence of your precious kiss
Why do I feel this pain?
Love's just a dangerous game

So where do I go from here?
What do I have to do?
Something to make you realize
Just how I feel for you

Don't you see you have the power
To make or break my day?
I'm getting weaker by the hour
Do you hear me when I say?

I'm so in alone, I feel so lonely
Here on my own, I've lost my way
I never dreamt that it could hurt like this boy
Lost in the absence of your precious kiss
Why do I feel this pain?
Love's just a dangerous game

But the feeling still remains
And the embers feed the flame
How I hope you feel the same
So I love will grow again

It's only you that has the power
To make or break my day
I'm getting weaker by the hour

Can't you hear me say?
I can't face the world today

I'm so in alone, I feel so lonely
Here on my own, I've lost my way
I never dreamt that it could hurt like this boy
Lost in the absence of your precious kiss
Why do I feel this pain?
Love's just a dangerous game

Wake up baby and give yourself to me
I'm the one for you, I'll show you intimacy
Forever no question unbridle my affection
And you will feel my love explode in your direction

Wake up baby and give yourself to me
I'm the one for you, I'll show you intimacy
Forever no question unbridle my affection
And you will feel my love explode in your direction

Wake up baby and give yourself to me
I'm the one for you, I'll show you intimacy
Forever no question unbridle my affection
And you will feel my love explode in your direction
