Clever girl, think you are
But you think too much
Shut down, turn around
Don't look that way any more

Clever girl, think you know
But you don't know much
Try to make a move
Go to a different door

You know it's all in your head
You better put that business to bed
By your fair hands of design
You met with the monster in your mind

You did it again, you did it again
Won't you listen to me?
When I'm telling you
It's no good for you

Clever girl, think you're right
But what's right from wrong?
Little Miss. Genius
You make it hard on yourself

Clever girl, you've got it all
But you're all messed up
Time now, turn around
Move onto something else

You know it's all in your head
You'd better put that business to bed
What you see nobody sees
It only brings you to your knees

You did it again, you did it again
Won't you listen to me?
When I'm telling you
It's no good for you

You did it again, you did it again
Won't you listen to me?

When I'm telling you
It's no good for you

You know it's all in your head
You better put that business to bed
By your fair hands of design
You met with the monster in your mind

You did it again, you did it again
Won't you listen to me?
When I'm telling you
It's no good for you

You did it again, you did it again
Won't you listen to me?
When I'm telling you
It's no good for you

You did it again, you did it again
Won't you listen to me?
When I'm telling you
It's no good for you
