Good Like That

[Fever]

Joe Belmaati/Kara Dioguardi/Mich Hansen

I've never been the type who's gonna wait around
And not make a sound while others bring me down
I'm not someone who'll tell you what you wanna hear
Oh you've got to feel by keeping it real

And until now I've been patient
I've been good somehow
But anticipation's leaving me no doubt
About how it will be
When you let go of your fear and release

Let's move into the fast lane
Take a chance and love me
I'll give you all I have
I'm good like that
Baby, when you crash into me
You'll finally understand
How loving me can change all your plans

I'm good like that
I'm good like that

Don't make me have to tell you that I told you so
'Cause I know you know and it's hard to hold
I cannot do this feeling, you'll find this double meaning
Do the things I say when you walk this way

Just relax, let me take control of you, sit back
Make you see where all this goes
I'm in too bad, what you got to lose
Compared to what I'm offering you

Let's move into the fast lane
Take a chance and love me
I'll give you all I have
I'm good like that
Baby, when you crash into me
You'll finally understand

How loving me can change all your plans
I'm good like that
I'm good like that

So take a chance and love me fast
And I'll give you all, all that I have
I'm good, I'm good, I'm good like that
So take a chance and love me fast
And I'll give you all, all that I have
I'm good, I'm good, I'm good like that
So take a chance and love me fast
And I'll give you all, all that i have
I'm good, I'm good, I'm good like that

Let's move into the fast lane
Take a chance and love me
I'll give you all I have
I'm good like that
Baby, when you crash into me
You'll finally understand
How loving me can change all your plans
Let's move into the fast lane
Take a chance and love me
I'll give you all I have
I'm good like that
Baby, when you crash into me
You'll finally understand
How loving me can change all your plans

Come on and love me

So take a chance and love me fast
And I'll give you all, all that I have
I'm good, I'm good, I'm good like that
So take a chance and love me fast
And I'll give you all, all that I have
I'm good, I'm good, I'm good like that
So take a chance and love me fast
And I'll give you all, all that i have
I'm good, I'm good, I'm good like that
