Don't ya think it was a good thing baby?  
Don't ya think we nearly got it right?  
We could work to a rhythm baby  
If we come together overnight

My eyes are open and my, my heart is?  
I'll never ever falter  
You know my love is real  
It's just my situation  
Can't help the way I feel  
No time for contemplation  
You know my love is real

Don't ya think it was a good thing baby?  
Don't ya think we nearly got it right?  
We could work to a rhythm baby  
If we come together overnight

My eyes are open and my, my heart is?  
I'll never ever falter  
You know my love is real  
It's just my situation  
Can't help the way I feel  
No time for contemplation  
You know my love is real
